

# Virtual Terminal

The way payment processing should be. **Simple.**

The Fattmerchant Virtual Terminal is a robust online invoicing and recurring billing solution designed to help business owners streamline the collection of online payments.

## Invoicing Made Easy

Send one-time invoices, schedule invoices to be sent ahead of time, or even set payment due dates to get paid even faster!

## For All Your Online Payments

Create payment links to send directly to customers, or copy and paste pre-built HTML to create payment buttons for your website - all from our intuitive web-based payment portal.

## Simplified Recurring Payments

Easily set up recurring invoices, subscription billing schedules, or even payment automation to get more time back in your day.

## Real-Time Analytics Dashboard

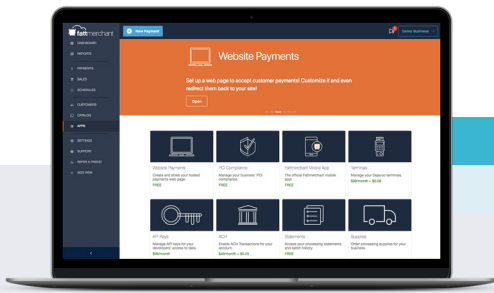

Gain instant access into the health of your business no matter how you process! All of your payments are synced real-time to your dashboard - available online or on-the-go!

## Payments with Peace of Mind

With built-in security features and secure card tokenization, you and your customers can rest easy knowing all personal information and payment methods are secure - no sensitive data ever hits your servers.

## Seamless Integrations

Enjoy pre-built tools designed to help you run and grow your business. Connect your favorite online accounting solutions like QuickBooks Online, build an online store in minutes through a fully integrated eCommerce platform, or sync additional hardware in just a few clicks!

## Accept All Payment Methods

- ACH/eCheck
- Cash
- Check
- Gift Cards

## Analytics & Reporting

- View top-selling items and product categories
- Identify hourly, daily, weekly, and monthly sales trends

## In-App Merchant Management

- Access deposit reports
- View processing statements
- Manage annual PCI compliance

## Cloud-Based Software

- Securely access sales, products, and reporting from your desktop, phone or tablet
- Enjoy seamless syncing across all devices - view and manage drafted transactions from anywhere
